

## WORKSHOP 1

### Aggregate requirements for the Plan Area

1. Introductions
2. Introduction to the task
3. Nominate a reporter

The first presentation provided an overview of the key issues facing Dorset County Council in planning for the future supply of construction aggregates.

This Group task provides an opportunity to look in more detail at:

- a) An appropriate plan period
- b) Existing levels of primary aggregate supply
- c) Alternatives to primary aggregate sources
- d) Approach to delivery of sustainable aggregate supply in Plan period

1. Discuss as a Group:

What do you consider is an appropriate period for the Core Strategy to cover?  
Should it be linked to the RSS?

2. Discuss as a Group what options exist for the Core Strategy to:

- a) Influence demand for local primary aggregates?
- b) Make provision for primary aggregates for Dorset?
- c) How should “real need and supply” be factored in?
- d) Meet the identified need for aggregate provision within the agreed Plan period

Using the matrix provided, describe each option you come up with and the advantages and disadvantages of each option.

Identify your Group’s preferred option for each topic.

## WORKSHOP 2

### Minerals Operations, Impacts and Mitigation

1. Introductions
2. Introduction to the task
3. Nominate a reporter

The second presentation provided an insight into the potential impacts arising from mineral workings.

Discuss as a Group what options exist for the Core Strategy to address the impacts and promote the benefits arising from mineral workings (note: Workshop 3 will specifically address: Restoration)

- a) What are the key impacts arising from mineral working?
- b) What are the options for dealing with these key impacts?
- c) Are there any particular/distinctive impacts particular to Dorset which may require special local policy?
- d) What positive contribution could the Core Strategy make for communities?

## **WORKSHOP 3**

### **Restoration**

1. Introductions
2. Introduction to the task
3. Nominate a reporter

The third presentation provided an insight into the potential benefits arising from restoration of mineral workings.

Discuss as a Group what options exist for the Core Strategy to address and promote the benefits arising from restoring mineral workings:

- a) What types of restoration are there and how can these be addressed through the Core Strategy?
- b) Which of these approaches is considered most appropriate to be taken forward through the Core Strategy;
  - i. Plan wide restoration strategy
  - ii. Bespoke site specific restoration schemes
  - iii. Mineral type/area specific strategies
  - iv. Other
